## ATTENTION RESIDENTS

**A FIRE INSPECTOR WILL BE AT YOUR BUILDING ON  
\_\_\_\_\_ AT \_\_\_\_\_.**

We will be inspecting your dwelling unit as well as the exterior property area. If you cannot be there for the inspection, let your landlord know so he/she can make arrangements for the inspector's access.

Here are some of the tenant's responsibilities:

1. Use of extension cords for permanent wiring is not allowed by the State Fire Code.
2. The dwelling unit must be kept in a reasonably clean and sanitary condition and free of excess combustibles.
3. Smoke detectors must not be tampered with.
4. The dwelling unit must not be overcrowded.

Please see that these items are corrected prior to the scheduled inspection. Thank you.
